PORTFOLIO

PROFILE

Enthusiastic Full Stack Web Developer skilled in MERN stack, creating fast, interactive, and user-friendly web applications. Passionate about solving problems, learning new tech, and turning ideas into real-world solutions.

WORK EXPERIENCE

- Developed several real-world web applications with practical use cases, focusing on scalability, user experience, and performance.
- Participated in multiple coding and business competitions at college, state, and inter-college levels, showcasing technical and problem-solving skills.

Projects

- **QR-Dine** : qr-code based ordering system
- **Pro-Skillhub** : pro-skillhub is a collaborative platform for college students to showcase skills, share projects, post educational content, and connect through real-time chat to learn, collaborate, and grow together.
- **RENTO** : RENTO is a web application that allows users to upload, manage, and browse properties with advanced search and filter features, along with an admin panel for efficient property management.
- **EchoChat** : EchoChat is a real-time chat application built with the MERN stack and Socket.IO, offering one-to-one and group messaging with user authentication, message history, and a clean, responsive interface
- **Zerodha Clone** : A simplified clone of Zerodha's Kite trading platform, created using the MERN stack. It includes a user dashboard, portfolio viewer, and responsive charts.
- **Many More**
